RENAL TRANSPORT AND DIURETICS / RENALER TRANSPORT UND DIURETICA

Book Condition: New. Publisher/Verlag: Springer, Berlin | International Symposium Feldafing, June 21 - 23, 1968 / Internationales Symposium Feldafing, 21.-23. Juni 1968 | It is generally appreciated that large congresses are not the optimal means of facilitating communication within specialized areas of medical research. Small symposia, where scientific discussion can be confined to limited groups, have lately become successful vehicles of information transfer. However, such symposia, although eminently suited to the exploration of specific problems, often have the inherent disadvantage of not being able to successfully address themselves to larger themes. Accordingly, the planners of this symposium have solicited the participation of internationally acclaimed investigators to consider current problems both in the physiological and clinical domains of nephrology. The observant reader will note that the variety of theoretical and experimental approaches used by the physiologists are reflected in the clinical studies, while the clinicians, in turn, have provided the physiologists with useful insights. The part of the symposium which attempted to correlate metabolic characteristics of kidney cells with their transport functions has proven to be particularly fruitful. For example, the presentations dealing with aldosterone, angiotensin and diuretics have offered a multi-faceted approach that was previously unavailable. The contributions of investigators from many countries and their enthusiastic participation have led to the success of this symposium. To them we wish to express our deep gratitude. We also wish to sincerely thank Dr. K. H. BEYER, Senior Vice President of Merck, Sharp & Dohme Research Laboratories, and Dr. H. F. HOFMANN, Director of Medical Research of Sharp & Dohme GmbH for their full support and their constant attention to our many requests. | - Inhaltsverzeichnis.- Renal Metabolism - Nierenstoffwechsel.- Renal Carbohydrate and Fatty Acid Metabolism / Kohlehydrat- und Fettsäure-Stoffwechsel der Niere.- Discussion.- Renal Metabolism of Amino Acids and Ammonia / Aminosäuren-...
