\*\*\*\*\*.The Second Coming reveals the most important issue on earth at this point in time: Jensenism. Relying upon the vast body of evidence that supports Jensenism, the book attacks head-on the most destructive force of our time - political correctness. As such, it is concerned primarily with political issues, while issues related to economics, religion, and psychology are necessarily addressed as well. Jensenism is the understanding based upon the overwhelming preponderance of scientific evidence, that general mental traits and talent potential are determined far more by an individual's genetic makeup than they are by the environment. The book addresses a highly controversial subject that has been, and continues to be, taboo to openly discuss. But by presenting Jensenism in an overall political framework, as opposed to simply examining the subject by itself, the reader is provided a broader perspective in which a more complete understanding of the subject can be developed. The changing demographics of the world population are examined, with a focus particularly on how Western cultures are being effected by immigration trends....
