

Handbook of English-Japanese Etymology

Filesize: 6.92 MB

Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Aliya Franecki)

HANDBOOK OF ENGLISH-JAPANESE ETYMOLOGY

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.An excerpt from the Preface: Recent English Grammarians are coming to drop Orthography and Prosody as properly belonging elsewhere, and to treat Grammar as divided into Etymology and Syntax. It is in this sense that the term is employed in the present work: Etymology, the fellow of Syntax; Grammatical Etymology, not Historical. As at first written, the book consisted entirely of classified sentences, prepared by the writer to serve him in rendering English into Japanese, and without a thought of their ever leaving his own table; when, however, it was decided to publish them in the hope that they might prove helpful to others in their earlier studies, it appeared likely that the usefulness of the book would be increased by a change in its form. Accordingly, an outline of Etymology was sketched out, and as many of the sentences as seemed desirable inserted, in illustration of important words ranged under their respective Parts of Speech. This statement will explain the presence of so large a number of examples; it is hoped also that it may afford a sufficient reason for certain blemishes in classification. The work being written from the English side, and with the design of helping the student to render ideas as they lie in an English mind, the author was able to find no title which better expressed his intention and method than the one adopted. Transliteration is still a vexed question, no one of the systems yet proposed commanding universal acquiescence. Those desiring to consult the literature of the subject are referred to the Introduction to Hepburn's Dictionary, Aston's Grammar of the Written Language, a monograph by Mr. Bramsen, and to...
